

REFRIGERATION
TECNOCRIO
REFRIGERAZIONE

La linea di **REFRIGERATORI** e **FREEZER DA BANCO TECNOCRIO**
si distingue dalla concorrenza per i materiali utilizzati:
la struttura dei refrigeratori infatti è in ABS Termoformato,
un materiale plastico ad alta resistenza
che permette di avere macchine più leggere,
con bordi arrotondati e superfici anti-riflettenti.

 I 9 frigoriferi da banco sono disponibili in diverse dimensioni perché possono adattarsi ad ogni tipo di esigenza, dai piccoli tavoli da lavoro ai grandi spazi di un ristorante o di una pizzeria.

Particolarmente indicati per: ingredienti per pizza, insalate e verdure, condimenti e salse, salumi e formaggi, antipasti misti e buffet freddi, frutta e macedonia, guarnizioni per gelato.

Trovano quindi utilizzo in: pizzerie e ristoranti, hotel e pensioni, bar e caffetterie, kebab e paninoteche, piadinerie e bruschetterie, creperie, panetterie e pasticcerie, gelaterie e yogurterie.

A richiesta: bacinelle in policarbonato o in acciaio inox, staffe per montaggio rialzato su banco e vetrinette in plexiglas trasparente.

 The 9 counter top refrigerators were designed with different dimensions in order to be used with by customers with different available space, from small tables to large counters in restaurants or pizza shops. Those refrigerators are particularly suitable for: pizza ingredients, cold cuts and cheese, salad and vegetables, fish hors d'oeuvres, seasoning and sauces, fruit and fruit salad, gelato topping and therefore they may be used in pizza shops, restaurants, sandwiches shops, kebab shops, bakeries and confectioneries, bar and coffee houses, ice cream and frozen yoghurt shops. They are also used in hotels and boarding-houses for buffet breakfast, aperitif, salads, fruit salads, etc. Tecnocrio may also deliver all the machines complete with polycarbonate or stainless steel basins, stainless steel supports and transparent display covers.

LINEA GELATISSIMO:

FREEZERS DA BANCO PER GELATO COUNTER TOP FREEZERS FOR ICE CREAM

 **I 3 freezer da banco** per gelato (gamma GELATISSIMO) possono essere impostati a temperature diverse a seconda del tipo di prodotto. Particolarmente indicati per: gelato artigianale, gelato industriale, gelato per celiaci o gusti particolari, yogurt gelato, granita siciliana, sorbetti, creme assortite. Molto versatili! Occupano poco spazio e possono quindi essere usati per: gelaterie, pasticcerie, catering, ristoranti, hotel e pensioni, bar e caffetterie, cerimonie, compleanni, ecc. e in tutti casi in cui si voglia offrire ai propri clienti un buon gelato senza dover acquistare una grande vetrina refrigerata. Il doppio coperchio trasparente garantisce piena visibilità del gelato. A richiesta: tutti i suoi freezer da banco possono essere forniti completi di bacinelle.

 **The 3 models of counter top freezers** of the GELATISSIMO range may be programmed at different temperatures, depending on the type of product to be preserved, so it will be always ready to be used. These models are used for: artisanal gelato (ice-cream), industrial ice-cream, special flavours ice-cream, frozen yoghurt, "granita siciliana" or sorbets, assorted creams, our counter top freezers are very compact and versatile, so they may be used mainly for gelaterie (ice-cream parlours), confectioneries, catering, restaurants, hotels and boarding houses, bar and coffee houses and/or all business that wish to offer to customers a good ice-cream without purchasing a large display cabinet. The counter top freezers are complete with a two layer transparent lid to allow for a perfect visibility of the product.
